MEDICATIONS FOR  
SUBSTANCE USE DISORDERS

**Substance use disorder  
treatment is now available  
at no cost to you.  
Let us connect you to care.**

MISSISSIPPI STATE DEPARTMENT OF HEALTH

## CONNECT WITH OUR ACCESS TO CARE PROGRAM

### FINDING TREATMENT AND ACCESS TO CARE IS NOW EASIER.

The MSDH Medications for Substance Use Disorders (MSUD) program is available statewide to increase access to treatment for substance use disorder. This program seeks to address gaps in access to opioid and substance use disorder treatment by making it easier to get access to treatment.

Our goal is to assist individuals seeking treatment via an online referral form, connecting them with statewide navigators and peer support specialists. We assist in finding suitable care, social supports, and post-treatment coordination. This form is open for use by state agencies, community-based organizations, or providers, particularly in overcoming treatment cost barriers.

### HOW CAN AN INDIVIDUAL OR MY ORGANIZATION PARTICIPATE?

To access our services, individuals may complete the online referral form or contact our team directly for assistance. Our contact details are conveniently located on the inside flap of this brochure.

If you represent an organization, you can use the link provided below to submit information about the services offered by your organization to be included in our resource directory.

## HOW DOES THE MSDH TREATMENT PROGRAM WORK?

First, you can fill out the online referral form, and one of our team members will contact you. You can also contact our team members at [msud@msdh.ms.gov](mailto:msud@msdh.ms.gov) to get more information.

Once you have connected with us, one of the navigators from the MSUD team will call you to discuss your medication and treatment needs and arrange for them through the program.

If you have medication needs, the MSUD team will get them prescribed and delivered to you, and will connect you to one of the MSUD team's peer support specialists who will work with you.

ONLY 1 IN 10 PEOPLE WITH ADDICTION  
RECEIVE TREATMENT

DRUG OVERDOSES ARE  
NOW ONE OF THE  
LEADING CAUSES OF DEATH  
AMONG U.S. ADULTS AGES 18-45.

### ARE YOU STRUGGLING WITH SUBSTANCE USE DISORDER (SUD)?

Let us help you. Our program offers a supportive community that provides shared understanding, mutual respect, and personal experiences. We'll guide you through the recovery process, help you develop a personalized recovery plan, and connect you with the resources you need to succeed.

### DO YOU FEEL LIKE YOU'RE ALONE IN YOUR JOURNEY TO RECOVERY?

We'll advocate for you during treatment and recovery, and help you build a support system. Our mentors will assist you with goal-setting, coping skills, independent living skills, and developing self-esteem.

We can also help you with Social Security benefits and food stamp eligibility. And we won't just support you - we'll educate your family and friends about SUD, so they can be a part of your journey too. Let us support you on your path to recovery.
